

# Kit SDS Cover Sheet Kinetic-QCL 192 Test Kit

Version 3.0

Revision Date 30.06.2021

Print Date 24.07.2021

## **Product Information**

Product name : Kinetic-QCL 192 Test Kit Material number : 50-650U

## Components

| Water LAL Reagent                          | SDS attached |
|--|--------------|
| Kinetic-QCL Vial                           | SDS attached |
| Endotoxin (E.coli) Low Conc in PEG/Lactose | SDS attached |

according to Work Health and Safety Regulations 2011

# Endotoxin (E.coli) Low Conc in PEG/Lactose

| Version 3.0                            | Revision Date 30.06.2021   | Print Date 24.07.2021 |

| Telephone<br>Telefax<br>E-mail address | : Tel +61 3 9550 0883<br>: Tel +61 3 9550 0890<br>: sds@lonza.com                              |                       |
| Emergency telephone number             | : +41 61 313 94 94 (24h)   |                       |
| Recommended use of the chemica         | al and restrictions on use   |                       |
| Recommended use                        | : For Endotoxin Detection Use  |                       |

## **SECTION 2. HAZARDS IDENTIFICATION**

#### **GHS Classification**

Not a hazardous substance or mixture.

## **GHS** label elements

Not a hazardous substance or mixture.

#### Other hazards which do not result in classification

May form combustible dust concentrations in air.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Substance / Mixture                | : Mixture  |                       |
|------------------------------------|------------|-----------------------|
| Hazardous components               |            |                       |
| Chemical name                      | CAS-No.    | Concentration (% w/w) |
| Substances with a workplace exposu | ure limit  |                       |
| Polyethylene glycol 8000           | 25322-68-3 |                       |

## **SECTION 4. FIRST AID MEASURES**

If inhaled

 Remove to fresh air.
 If breathing is irregular or stopped, administer artificial respiration.
 If symptoms persist, call a physician.

according to Work Health and Safety Regulations 2011

# Endotoxin (E.coli) Low Conc in PEG/Lactose

| Version 3.0   | Revision Date 30.06.2021  | Print Date 24.07.2021      |
|---|---|----------------------------|
| In case of skin contact                                     | : Wash off with soap and water.   |                            |
| In case of eye contact                                      | : In the case of contact with eyes, rin<br>of water and seek medical advice.<br>Call a physician immediately. | se immediately with plenty |
| If swallowed  | : Clean mouth with water and drink a  | fterwards plenty of water. |
| Most important symptoms and effects, both acute and delayed | : No information available.   |                            |
| Notes to physician  | : No information available.   |                            |

## **SECTION 5. FIREFIGHTING MEASURES**

| Suitable extinguishing media                  | Dry powder<br>Water spray<br>Foam                   |            |
|---|---|------------|
| Hazardous combustion products                 | Carbon oxides (Cox)                                 |            |
| Specific extinguishing methods                | Use water spray to cool unopened containers.        |            |
| Special protective equipment for firefighters | In the event of fire, wear self-contained breathing | apparatus. |

## SECTION 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions, protective<br>equipment and emergency<br>procedures | : | Avoid dust formation.<br>Use personal protective equipment.  |
|---|---|--|
| Environmental precautions   | : | No special environmental precautions required.<br>Clean contaminated floors and objects thoroughly while<br>observing environmental regulations. |
| Methods and materials for<br>containment and cleaning up                  | : | After cleaning, flush away traces with water.<br>Dispose of in accordance with local regulations.  |

## SECTION 7. HANDLING AND STORAGE

| Hygiene measures : Wash hands before break  | ks and immediately after handling the |
|---|---------------------------------------|
| Advice on safe handling : Avoid formation of respira<br>Provide sufficient air exch<br>Avoid contact with skin an | ange and/or exhaust in work rooms.    |
| Advice on protection against fire and : Avoid dust formation.<br>explosion Take precautionary measured            | ures against static discharges.       |

according to Work Health and Safety Regulations 2011

# Endotoxin (E.coli) Low Conc in PEG/Lactose

| Version 3.0                     | Revision Date 30.06.2021                                | Print Date 24.07.2021 |
|---------------------------------|---|-----------------------|
|                                 | product.<br>Avoid contact with skin, eyes and clothing. |                       |
| Conditions for safe storage     | : Keep tightly closed in a dry and cool place.          |                       |
| Recommended storage temperature | : 2 - 8 °C  |                       |

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

| Components  | CAS-No.  | Value type<br>(Form of<br>exposure) | Control<br>parameters /<br>Permissible<br>concentration          | Basis                |
|---|--|-------------------------------------|--|----------------------|
| Polyethylene glycol 8000                            | 25322-68-3   | TWA                                 | 10 mg/m3   | WEEL                 |
| Engineering measures                                | : Provide  | sufficient air exc                  | change and/or exha   | ust in work rooms.   |
| Personal protective equipment                       |  |                                     |  |                      |
| Respiratory protection                              | : In the case of dust or aerosol formation use respirator w approved filter. |                                     |  | e respirator with an |
| Hand protection<br>Material<br>Rate of permeability | : Nitrile ru<br>: > 480 m  |                                     |  |                      |
| Eye protection                                      | : Safety g   | lasses with side                    | e-shields  |                      |
| Skin and body protection                            | concent  | ration of the dar                   | according to the ar<br>ngerous substance a<br>puipment required. |                      |

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

| Appearance                              | : | powder            |
|---|---|-------------------|
| Colour                                  | : | white             |
| Odour                                   | : | odourless         |
| Odour Threshold                         | : | no data available |
| рН                                      | : | Not applicable    |
| Melting point/freezing point            | : | no data available |
| Initial boiling point and boiling range | : | no data available |

according to Work Health and Safety Regulations 2011

| Density  | : | no data available        |                       |
| Water solubility                                 | : | partly soluble           |                       |
| Partition coefficient: n-octanol/water           | : | no data available        |                       |
| Auto-ignition temperature                        | : | Not applicable           |                       |
| Decomposition temperature                        | : | no data available        |                       |
| Viscosity, dynamic                               | : | no data available        |                       |
| Viscosity, kinematic                             | : | Not applicable           |                       |

## SECTION 10. STABILITY AND REACTIVITY

| Reactivity                         | : | Stable under recommended storage conditions. |
|------------------------------------|---|--|
| Chemical stability                 | : | Stable under normal conditions.              |
| Possibility of hazardous reactions | : | Stable under normal conditions.              |
| Conditions to avoid                | : | Keep away from heat and sources of ignition. |
| Incompatible materials             | : | Strong oxidizing agents                      |
| Hazardous decomposition products   | : | No decomposition if stored normally.         |

## SECTION 11. TOXICOLOGICAL INFORMATION

## Acute toxicity

according to Work Health and Safety Regulations 2011

# Endotoxin (E.coli) Low Conc in PEG/Lactose

| ion 3.0   | Revision Date 30.06.2021     | Print Date 24.07 |
|---|------------------------------|------------------|
| Acute inhalation toxicity                       | : Remarks: no data available |                  |
| Skin corrosion/irritation                       |                              |                  |
| Remarks: no data available                      |                              |                  |
| Serious eye damage/eye irrit                    | ation                        |                  |

| Recommended use of the chemical        | and restrictions on use  |                       |
| Recommended use                        | : For Endotoxin Detection Use  |                       |

## **SECTION 2. HAZARDS IDENTIFICATION**

**GHS Classification** Not a hazardous substance or mixture.

## **GHS** label elements

Not a hazardous substance or mixture.

#### Other hazards which do not result in classification

May form combustible dust concentrations in air.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture: MixtureHazardous components:No hazardous ingredients

## **SECTION 4. FIRST AID MEASURES**

| If inhaled              | : No special precautions required.   |
|-------------------------|--|
| In case of skin contact | <ul> <li>After contact with skin, wash immediately with plenty of soap<br/>and water.</li> <li>If skin irritation persists, call a physician.</li> </ul> |
| In case of eye contact  | : Immediately flush eye(s) with plenty of water.   |

# **Kinetic-QCL Vial**

| Version 3.0   | Revision Date 30.06.2021   | Print Date 24.07.2021 |
|---|--|-----------------------|
|   | If eye irritation persists, consult a sp   | pecialist.            |
| If swallowed  | : If swallowed, do not induce vomiting<br>Immediately give large quantities of<br>Never give anything by mouth to an | water to drink.       |
| Most important symptoms and effects, both acute and delayed | : No information available.  |                       |
| Notes to physician  | : No information available.  |                       |

## **SECTION 5. FIREFIGHTING MEASURES**

| Suitable extinguishing media                  | : Dry powder<br>Water spray<br>Foam   |
|---|---|
| Hazardous combustion products                 | <ul> <li>Nitrogen oxides (NOx)<br/>Sodium oxides<br/>Chlorine<br/>Magnesium oxides<br/>Ammonia<br/>Carbon oxides (Cox)<br/>Hydrogen chloride (HCI)</li> </ul> |
| Specific extinguishing methods                | : Use water spray to cool unopened containers.  |
| Special protective equipment for firefighters | : In the event of fire, wear self-contained breathing apparatus.  |

## SECTION 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions, protective equipment and emergency procedures |     | Use personal protective equipment.<br>Avoid dust formation.        |
|---|-----|--|
| Environmental precautions   |     | Try to prevent the material from entering drains or water courses. |
| Methods and materials for containment and cleaning up               | : \ | Wipe up with absorbent material (e.g. cloth, fleece).              |
|   | I   | Dispose of in accordance with local regulations.                   |

## SECTION 7. HANDLING AND STORAGE

| Advice on protection against fire and explosion | : | No special precautions required.           |
|---|---|--|
| Advice on safe handling                         | : | Minimize dust generation and accumulation. |

| Hygiene measures            | : Handle in accordance with good inc<br>practice.   | lustrial hygiene and safety            |
| Conditions for safe storage | : No special storage conditions requi   | red.                                   |

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## Components with workplace control parameters

Contains no substances with occupational exposure limit values.

| Engineering measures                                | : | It is recommended that all dust control equipment such as<br>local exhaust ventilation and material transport systems<br>involved in handling of this product contain explosion relief<br>vents or an explosion suppression system or an oxygen<br>deficient environment.<br>Ensure that dust-handling systems (such as exhaust ducts,<br>dust collectors, vessels, and processing equipment) are<br>designed in a manner to prevent the escape of dust into the<br>work area (i.e., there is no leakage from the equipment).<br>Use only appropriately classified electrical equipment and<br>powered industrial trucks. |
|---|---|---|
| Personal protective equipment                       |   |   |
| Respiratory protection                              | : | Respirator must be worn if exposed to dust.   |
| Hand protection<br>Material<br>Rate of permeability | : | Nitrile rubber<br>> 480 min   |
| Eye protection                                      | : | Safety glasses with side-shields  |
| Skin and body protection                            | : | No special protective equipment required.   |

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

| Appearance         | : (lyophilised)     |              |
|--------------------|---------------------|--------------|
